

The World Under the Waves

1. How many different types of animals live under Busselton Jetty?

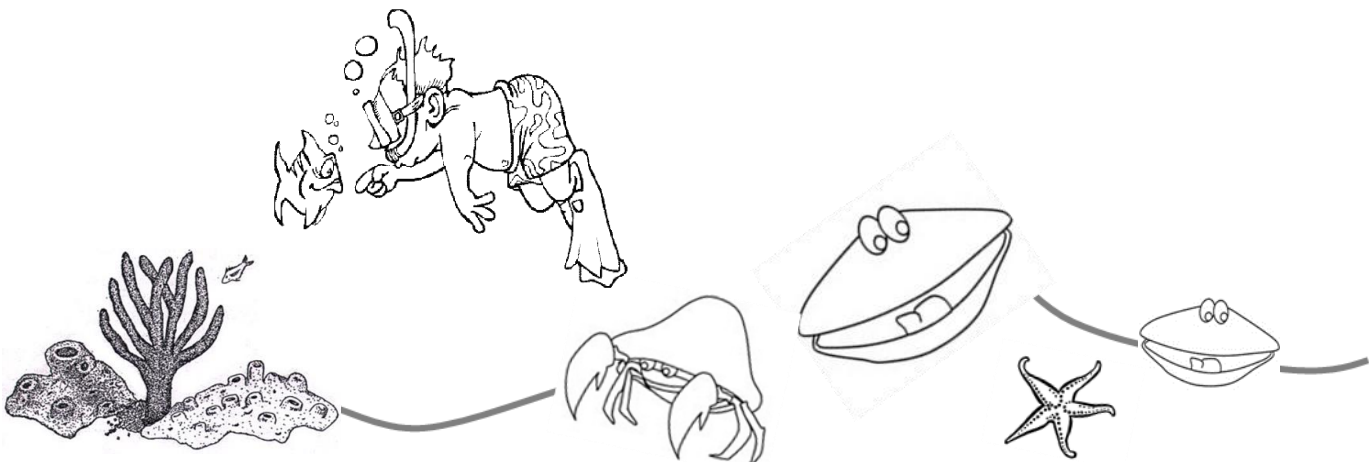

2. Draw a picture of two animals you can see from the Underwater Observatory.

3. Name a fish which finds and eats its food on the pylons.

4. What type of animal might you find living in the nearby seagrass meadows?

5. Which nocturnal sea creature spends all night cleaning up the ocean floor?

6. Draw a picture for each of these animals and fill in the missing words.
